

JVPS Student of the Month  
December 2016

**Shayna Dehart**  
5<sup>th</sup> Grade - Mrs. Meihack

Shayna was named the Most Improved Student for the first quarter of the 2016-2017 school year. Her improvements come academically as well as for personal successes she has attained. Shayna works extremely hard on any task given to her and is willing to help others in need. She has become our class technical assistant and helps monitor all my students when operating our devices during class. Whether she is involved in a game of kickball or football at recess, or consoling a peer that may be having a tough day, she is one that has come to lead by example. Her growth over time is extremely evident when working one on one with her first grade Reading Buddy. Her patience, kindness and support for her partner is beyond special. Mrs. Hogan has mentioned on more than one occasion just how impressed she is with Shayna's disposition and demeanor during this time. Coach Miller has also given her accolades on how much she has changed and grown. He is very pleased with the difference and how positive her attitude has been. It is because of her personal growth and successes that she has been selected as the JVPS Student of the Month for December 2016!!
